A no charge purchase order is required to initiate a Polar free trial of a CoolOR System

Non-Tethered System Type (pick just one for the free trial program)

Cool58: Adjustable vest with insulated pockets and 4 strip packs. Packs will charge in a refrigerator or a cooler of ice water and they release their cooling energy at a comfortable 58 degree F.

- Vest with four pockets and four 400 gram Cool58 strip packs. This style offers the convenience of just 4 larger packs. #PCVZ-400
- Vest with four pockets and four 500 gram Cool58 strip packs. This style offers the convenience of just 4 larger packs. #PCVZ-500
- Vest with 8 to 12 pockets and 8-12 .4 lb. Cool58 packs. This style concentrates cooling down the spine. It allows flexibility in how many packs are used and the location of those packs on the body. #KMVZ-PC

VZ-PC & VC-KM vests are the same outer design

Kool Max water base: Adjustable vest with insulated pockets and 8-12 packs. Packs are charged in a freezer will charge in a refrigerator or cooler of ice water and they release their cooling energy at a comfortable 58 degree F.

- Vest with four Kool max strip packs. Packs are 400 gram and 500 gram depending on size. This style offers the convenience of just 4 larger packs. #PCVZ-KM
- Vest with 8 to 12 small .4 lb. Kool Max packs. This style concentrates cooling down the spine. It allows flexibility in how many packs are used and the location of those packs on the body. #KMVZ
