Dear Polar Products, Thank you and MSAA so very much for my cooling vest. I never knew there was such a thing as a cooling vest until I saw it on Facebook by multiplesclerosis.net. I was thrilled to learn such a thing exists! I went to the Multiple Sclerosis Association of America to apply for my awesome, wonderful Polar Products cooling vest. It's been such a blessing. Total life changer. I'm actually able to leave my house and DO things! Just can't thank you and MSAA enough. Sincerely, Erin C. (PS: Stupid MS + heat = bummer.)

"I'm a 100% disabled Air Force veteran who served in Afghanistan. I have been diagnosed with multiple sclerosis, lupus, fibromyalgia, chronic migraines and much more. It's extremely hot where I live and I would have relapses whenever I had to go outside. My neurologist recommended Polar Products. In 2014, I purchased one of everything that was recommended for MS patients. I'm now doing better and can actually do the things I used to do and not get super sick from the heat. The cloth products last through years of washes and the cool packs still continue the cooling effect for hours, like new. I recommend Polar Products to everyone! Whether you are an MS patient or just somebody who has trouble with heat, Polar Products does the job!" - J. in CA
